Examination requested: Document - Fingerprint
Remarks:

Q27 and Q28 will be returned to Los Angeles with the results of the requested latent fingerprint examination.

For the information of Los Angeles, similar obscene and threatening communications have been received by numerous highly placed persons in both local and federal government. Suspect in this matter is [redacted] Virginia, who was recently arrested by the U. S. Secret Service and Postal Inspectors for writing similar communications.

bearing the typewritten address "Frank Sinatra Palm

**Q28 Index card bearing typewritten message beginning
" I am a ..." ending "...Halifax, Va. 24558"**

Result of examination:

It was determined that the questioned typewriter impressions on Q27 and Q28 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on similar specimens previously received in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q27 and Q28 when compared with the typewriter impressions on previous specimens, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q27 and Q28 which would aid in determining their immediate source.

Q27 and Q28 were photographed and will be returned separately to Los Angeles.

Result of examination:

The typewriter impressions on Q25 and Q26 are the same style and size as the typewriter impressions on specimens previously submitted in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q25 and Q26 when compared with the typewriter impressions on specimens previously submitted in this case, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristics. No significant differences were noted in the typewriter impressions on those specimens.

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q25 and Q26 which would aid in determining their immediate source.

Q25 and Q26 were photographed and are retained.

CONFIDENTIAL - SECURITY INFORMATION

For your additional information, similar postcards have been received by Senator Gaylord Nelson, (Democrat - Wisconsin) and the Secretary of Transportation, both are registered in Durham, North Carolina. All offices should advise local and Federal authorities concerning these threats.

SECRET

The Administrative Assistant to Senator Gaylord Nelson (Democrat - Wisconsin, with whom we have cordial relations) forwarded an obscene threatening postcard by letter dated 3/4/71. Several high-placed persons in local and Federal Government have received identical obscene threatening postcard signed "Charles L. McCormack III, Halifax, Virginia." Secret Service developed William Douglas Shepherd as a suspect and United States Attorney in Virginia authorized Federal prosecution for threats to the President and obscene mailing. Shepherd was arrested by Secret Service and postal authorities on 3/12/71. Bureau did not participate as Shepherd has not been positively identified as preparing questioned threatening communications. Our Extortion investigation is continuing.

Result of examination:

It was determined that the questioned typewriter impressions on Q9 through Q15 and Q20 through Q23 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on Q1 through Q8, previously submitted in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q1 through Q15 and Q20 through Q23, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

It was determined that the typewriter impressions on checks Q16 through Q19 were not prepared by the same typewriter or typewriters used to prepare the typewriting on the remainder of the specimens submitted in this case. The typewriter impressions on checks Q16 through Q19 were prepared in a different style of type than that on the remaining specimens.

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q9 through Q23 which would aid in determining there immediate source.

Q9 through Q23 were photographed. Q9 through Q15 and Q20 through Q23 are retained temporarily. Q16 through Q19 are returned to Richmond with copies of this report.

NOTE TO SACS, NORFOLK, WASHINGTON FIELD OFFICE,
CHARLOTTE, AND RICHMOND:

For your additional information, similar post cards have now been received by Associate Justices of the Supreme Court William J. Brennan Jr., and Justice Harry K. Blackmun jointly, and Senator Vance Hartke (Democrat - Indiana), both postmarked Durham, North Carolina. You should expedite all logical investigation to identify the author of these post cards and present to the appropriate U.S. Attorney. All offices should advise local and Federal authorities concerning these threats. The Laboratory has advised that a Remington pica typewriter, ten letters to the inch, was used to type these post cards; however, no defects in the lettering have been discovered.

NOTE:

Senator Vance Hartke (Democrat - Indiana), with whom we have cordial relations, forwarded an obscene threatening post card by referral slip dated 3/4/71. REQUEST OF THE LABORATORY:

Compare typewriting on enclosures with specimens previously submitted to Laboratory (Laboratory numbers D-710219034-MS and D-710222012-MS).

It is to be noted that enclosed checks have been previously examined by both the U. S. Secret Service and the U. S. Post Office Department; however, it is believed most advantageous to have these documents now examined by Bureau examiners. In the event Laboratory testimony would be necessary in this case, it is desirous that Bureau experts testify rather than another Government agency. Therefore, it is requested that the Laboratory conduct the above requested examination.

Commonwealth's Attorney, Halifax, Va., advised [redacted] case is continued until 3/23/71, and requests enclosures be returned for court date, to Richmond Division.

In view of above, Bureau is requested to expedite examination of enclosures which are to be used as evidence in Halifax Co., Va., 3/23/71.

Enclosed for Norfolk are 2 copies of Albany airtel to Director dated 3/4/71, and one copy of the enclosure therewith.

On 3/8/71, Mr. JOHN H. GRIMES, Special Agent in Charge, U. S. Secret Service Office, Charlotte, N. C., telephonically advised that his office had received from the State Bureau of Investigation (SBI), Raleigh, N. C., two cards postmarked at Durham, N. C., 3/1/71, which were prepared on a typewriter and contained the same message as previous cards received in this case, including the name of [REDACTED] Halifax, Va. One of these cards was addressed to Governor ROBERT W. SCOTT of North Carolina, and the other to [REDACTED] [REDACTED] to Governor SCOTT. He stated the SBI requested that the cards be returned to their office. In view of the investigation being conducted by the SBI in this matter, the original cards are not being obtained, and active investigation is not being conducted concerning the cards received by Governor SCOTT and [REDACTED] UACB.

Mr. GRIMES stated that he is not aware of the status of the Secret Service investigation which is being conducted out of the Richmond Office regarding similar cards previously mailed to Vice President AGNEW and other Federal officials. He stated, however, that investigation by Secret Service has indicated that the UNSUB must use gloves in handling the cards, as no latent fingerprints of value have been found on any of the cards. He stated suspect [REDACTED] reportedly is on Federal parole and under the supervision of the Federal Probation Officer at Danville, Va.

For the information of the Albany Division, a series of similar cards have recently been received by the various victims listed in this case. These cards have been mailed from Greensboro, N. C., and from Durham, N. C. [REDACTED] [REDACTED] is reported to be [REDACTED]

[redacted] Virginia, has been developed as a suspect. He reportedly is mentally unbalanced. South Boston, Virginia, is located near the North Carolina line and is a relatively short distance from Greensboro and Durham, N. C.

All investigation to date points strongly to [redacted] Va., as the UNSUB in this case. The large quantity of postcards which have been mailed and the post marks on the cards suggest that they are prepared in advance and mailed in groups. Under the assumption that [redacted] is the UNSUB, the overall circumstances would suggest that he prepares the postcards in South Boston, Va., and periodically travels to North Carolina for the purpose of mailing them. They are usually mailed on weekends. It would, therefore, appear that investigation and possibly surveillance of [redacted] is in order. The possibility exists that he could be surveilled to a Post Office or a Post Office Box and observed to mail some of the cards, which could then be recovered.

REQUEST OF THE BUREAU

The FBI Laboratory is requested to examine the original postcards which have been previously forwarded for examination to determine if they are all prepared on the same typewriter, and further to provide a description of the make of typewriter, in order that investigation may be conducted in the South Boston, Va., area to locate the typewriter used by the UNSUB.

Q6 U.S. Postal card postmarked "DURHAM NC 1971 PM ____" and bearing typewritten address "Senator B. Everett Jordan, D-N.C. Duke University Hospital Durham, N.C." bearing on reverse side typewritten message beginning "I am a ____..." ending "Halifax, Va. 24558"

Specimens received 3/8/71

Q7 U.S. Postal card postmarked "DURHAM, NC 2A PM 1 MAR 1971" bearing typewritten address "Secretary of Agriculture Clifford M. Hardin Dept. of Agriculture Washington, D.C." and on reverse side typewritten message beginning "I am a ..." and ending "... Halifax, Va. 24558"

Q8 Ruled white index card bearing, on reverse side, typewritten message beginning "I am a ..." and ending "... Halifax, Va. 24558"

Result of examination:

It was determined that the questioned typewriter impressions on Q6 through Q8 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on Q1 through Q5, previously submitted in this case. Although a limited number of characteristics in common were noted in the questioned

typewriter impressions on Q1 through Q8, it was not possible to definitely determine whether the same typewriter was used in the preparation of those specimens, due to the limited nature of the characteristic defects. No significant differences were noted.

No indented writings of significance or other significant features were noted which would aid in determining the immediate source of Q6 through Q8.

Q6 through Q8 are retained temporarily. Photographs were made of all specimens.

bearing typewritten address "Senator Fred D. Harris,

Result of examination:

It was determined that the questioned typewriter
impressions on Q3 through Q5 were prepared on a typewriter
or typewriters equipped with the same style and size of

type as that used to prepare the questioned typewriter impressions on Q1 and Q2, previously submitted in this case. However, though a limited number of characteristics in common were noted, it was not possible to definitely determine whether the same typewriter prepared the questioned typewriter impressions on Q1 through Q5. No significant differences were noted.

Q3 through Q5 were photographed and will be returned separately.

EXTORTION

Specimens received from Washington Field Office, 2/19/71

Q1 U. S. postal card postmarked "GREENSBORO, NC 23 PM
13 FEB 1971," bearing typewritten address "Senator
Gilbert D. Miller, D-Ark. Washington, D.C." and bearing
on reverse side the typewritten message beginning
"I want to ..." and ending "... Halifax, Va. 24503."

Specimen received 2/19/71

Q2 U. S. postal card postmarked "GREENSBORO, NC 23 PM
13 FEB 1971," bearing typewritten address "House
Republican Leader Gerald R. Ford Washington, D.C." and
bearing on reverse side the typewritten message
beginning "I am ..." and ending "... kill her too."

Result of examination:

Q1 and Q2 were compared in the Anonymous Letter
File, but no identification was effected. Appropriate
photographs will be added to the file for future reference.

The typewriting on Q1 and Q2 conforms most closely
to the laboratory standard for Remington pica type, spaced
ten letters to the inch. It was noted that the typewriter
impressions on Q1 and Q2 are of the same size and style and
have a limited number of characteristic defects in common
which suggest the possibility that the typewriter impressions
on the two specimens were prepared by the same typewriter;
however, the characteristic defects are too limited to permit
any definite conclusion.

An examination of the Q1 and Q2 U. S. postal cards failed to reveal any indented writings or other details to aid in determining their original source.

Q1 and Q2 were photographed and are retained tentatively.

Charles E. McCarthy;

J. J. McCarthy
S. McCarthy.

and Legislative Assistant to Congressman Edward (Republican) today furnished a post card postmarked Waverly, North Carolina, which Congressman Edward received yesterday. The writing on the post card is extremely obscene and threatens the Congressman a life unless he engages in homosexual activity with the writer.

The United States Postal Service at Norfolk, Virginia, on February 17, 1971, intercepted a post card bearing a Greensboro, North Carolina, postmark addressed to Virginia State Senators, James H. Howell, Jr., and Walter L. Mahalan. The message on this post card is identical to that set forth in the post card to Congressman Ford. Both post cards were signed Charles L. McCorlitz, Ballias, Virginia. McCorlitz is a 60 year old attorney at Ballias, Virginia.

Aerof Service in Richmond, Virginia, advised our office that the post card was possibly written by one William Joseph Shephard of Washington, D. C. Aerof Service has a valuable index containing similar type letters to the President and other Government officials written by Shephard. It has been reported that Shephard is on probation for writing a similar type letter. The United States Attorney's office in Norfolk advised prosecution will be entertained if the writer of the post card is identified.

Secret Service and appropriate law enforcement agencies in Washington, D. C., have been advised of the post card sent to Congress and for investigation is being pressed to identify the writer so that presentation of the card to the White House Attorney. Appropriate authorities in Washington have been advised of the threatening card sent to the White House.
